GENERAL APPLICATION INFORMATION

OVERVIEW

The goal of the Community Development Block Grant (CDBG) Planning-Only Grant Program is to support eligible small communities and rural counties in carrying out planning activities that lead to the implementation of priority projects that principally benefit low- and moderate-income persons.

PROGRAM PURPOSE

The CDBG Program is funded by the U.S. Department of Housing and Urban Development and must meet one of the two following national objectives (Title I, Housing and Community Development Act of 1974, as amended):

- To principally benefit persons of low- and moderate-income
- To prevent or eliminate slums or blight

PROGRAM PRIORITIES

In addition, the project must address one or more of the following Planning-Only Grant program priorities and have the potential of leading to the implementation of a priority project.

- To address public health and safety issues
- To improve essential services to low- and moderate-income (LMI) persons
- To complete a necessary and specific step within a broader community development strategy
- To assist communities in meeting planning requirements that will principally benefit LMI persons

ELIGIBLE APPLICANTS

- Eligible applicants are Washington State cities and towns with less than 50,000 in population or counties with less than 200,000 in population that are non-entitlement jurisdictions or are not participants in a HUD Urban County Entitlement Consortium (See appendix A for map).
- Non-profit organizations, Indian tribes, and special purpose organizations such as public housing authorities, port districts, community action agencies, and economic development councils, are not eligible to apply **directly** to the CDBG Program for funding. However, eligible jurisdictions may choose to serve Indian tribes within their jurisdiction or to involve the other organizations in the operation of projects funded under the program.
- Projects must principally benefit LMI persons. Low- and moderate-income is defined as 80 percent of county median income.

ELIGIBLE ACTIVITIES

CDBG Planning-Only Grants may be used for a variety of planning activities that meet a national objective, such as addressing the needs of LMI persons in the community. Eligible planning activities include activities that consist of all costs of data gathering, studies, analysis and preparation of plans, and the identification of actions that will implement the plans.

Activities can include:

- Comprehensive plans.
- Community development plans.
- Functional plans, in areas such as Housing, Land use and urban environmental design, and Economic development.
- Individual projects plans.
- Small area and neighborhood plans.
- Capital improvement programs.
- Environmental studies.

A detailed list of eligible planning activities is identified in Appendix F.

INELIGIBLE ACTIVITIES

In general, any type of activity not described in the reference above is ineligible for consideration. In addition, CDBG Planning-Only Grants may not be used to fund:

- General grant administration expenses.
- Engineering, architectural and design costs related to a specific construction activity.
- Actual blue prints.
- Direct development of an application to any of the CDBG program funds.
- Other costs of implementing plans. (These costs may be eligible for CDBG funding as part of a CDBG construction grant.)

FUNDING LEVELS

A fund of \$500,000 is available in 2006. Grants are available at an upper limit of \$35,000 for a single applicant or \$50,000 for a joint application involving two or more eligible jurisdictions that share a common planning need. **To receive an award at the upper limit all of the following criteria must be met:**

- The proposed project is to address a public health and safety issue.
- The proposed project is required by a regulatory agency (such as the state Department of Health or Department of Ecology).
- The community is facing financial hardship in addressing the issue.
- Other funding has been considered (such as Public Works Trust Fund Loan).

If the above criteria are not met, the maximum amount available is \$24,000 for a single application or \$40,000 for two or more eligible jurisdictions.

Pre-applications are accepted and reviewed throughout the year, with awards made on a funds-available basis. To be considered for funding from the current program year, the jurisdiction must be invited to apply and the full application must be received by December 31st of that program year.

There is no match requirement; however, local contributions or leveraged funds from other sources are viewed favorably and general grant administration costs will not be reimbursed.

JOINT APPLICATIONS

When two or more eligible jurisdictions are located in the same region and share a common planning need, they are encouraged to seek cooperative solutions by preparing a joint application. An Interlocal Agreement, signed by each participating jurisdiction, must be submitted with the application, if an invitation to apply is extended. Jurisdictions considering a joint application for the higher funding level are encouraged to first contact the CDBG program to review eligibility, including:

- Whether all applying jurisdictions are non-entitlement jurisdictions and able to meet the federal threshold requirements.
- Whether the joint planning effort would be a significant increase in scope and cost from a single jurisdiction planning effort, requiring additional Planning-Only Grant funds.

RELATIONSHIP BETWEEN PLANNING-ONLY GRANTS AND OTHER CDBG FUNDS

An eligible jurisdiction can apply for more than one type of CDBG funding within the same year. However, a jurisdiction (including a jurisdiction participating in a multiple jurisdiction project) will not be awarded more than one Planning-Only Grant each year, so the planning project of highest priority should be submitted first. The required CDBG citizen participation requirements can assist with this local prioritization process.

A Planning-Only Grant cannot fund the direct development of another CDBG application, although some activities that could support a subsequent application are eligible for Planning-Only Grant funding. Receipt of a Planning-Only Grant *does not* guarantee that a related CDBG application will be funded.

MINIMUM PERFORMANCE STANDARDS

CTED reserves the right to deny funding when submitted applications involve eligible general purpose or special purpose units of governments with serious unresolved audit findings related to performance capacity.

CTED reserves the right to postpone project contracting or to deny funding if there is a significant problem with previous grantee performance. In such situations, the grantee is responsible for development and initiation of corrective action satisfactory to CTED. Upon request, CTED will provide technical assistance to the community to help ensure timely completion of approved project activities.

CDBG REQUIREMENTS FOR PROCURING PROFESSIONAL SERVICES

Jurisdictions that intend to use CDBG resources to pay for professional services must follow federal procurement procedures. **If you secure the services of consultants without following approved federal CDBG procurement guidelines, the consequences may include:**

- Costs to the jurisdiction that will not be CDBG reimbursable.
- Project delays.
- Formal grievances from citizens and businesses that may have been excluded from the procurement process.

CDBG staff is available to assist in the federal procurement process. This document provides an overview of procurement guidelines that may be useful as a quick reference.

Advertisement Requirements for Professional Services – Two types are allowed: Request for Statement of Qualifications (RSQ) or Request for Proposals (RFP). The methods are outlined below:

- Publish a request for qualifications (RSQ method) announcement on each occasion when professional services are required.
- Publish a request for qualifications announcement annually in each category of service required by the jurisdiction. (In those instances where the jurisdiction completed the RSQ process prior to receiving the CDBG award, the CDBG funded project must fall within one of the general categories of projects listed in the earlier advertisement and meet all of the CDBG procurement requirements.)
- Publish a request for proposals (RFP method), which specifies the type of project, anticipated start date, and lists evaluation criteria with relative importance that will be used to rank proposals.

The following statements must be included in the advertisement for both methods.

- The (City or County) of _____ is an Equal Opportunity and Affirmative Action Employer.
- Minority- and women-owned firms are encouraged to submit statement or proposals.
- This project is (funded or partially funded) through the Washington State Community Development Block Grant program with federal funds provided by the U.S. Department of Housing and Urban Development.

The RFP or RSQ advertisement must be publicized at a minimum once a week for two weeks in a major newspaper of general circulation. At least 14 calendar days from the last publication must be allowed for respondents to prepare and submit their proposal or statement of qualifications.

- Using the RSQ method, at least three statements of qualifications must be received to have competitive procurement.
- Using the RFP method, at least two qualified proposals must be received to have competitive procurement.

Steps must be taken to encourage minority- and women-owned business enterprises (MWBE) and small business participation during the procurement process. These affirmative steps must be included at a minimum:

- Develop an inventory of any local minority- and women-owned businesses providing needed services.
- Contact the State Office of Minority and Women's Businesses Enterprises to obtain a Directory of Certified Minority, Women's and Disadvantaged Business Enterprises.
- Send a copy of the newspaper advertisement used to publish the RFQ or RFP to a minimum of five minority- or women-owned firms taken from the local inventory and/or from the Directory of Certified Minority, Women's and Disadvantaged Business Enterprises or list the availability of the procurement opportunity on the MWBE web site.

Small Purchase Procedures – In those instances where services are not expected to cost over \$25,000 in the aggregate, small purchase procedures may be utilized to procure consultant services other than professional engineering or architectural services. If small purchase procurement is used, price or rate quotations or proposals must be obtained from at least three qualified sources. Efforts must be made to seek at least one quotation or proposals from a minority- and/or women-owned business enterprise. If the jurisdiction has established a lower ceiling for small purchases, then the lower ceiling should be followed. When using small purchase procedures, it is strongly recommended that selected firm's references and ability to perform be thoroughly checked.

For more information on consultant selection/contracting in relation for the CDBG-funded programs, please contact Sheila Lee-Johnston at (360) 725-3009 or Sheilal@cted.wa.gov.
